Americana

Here it is . . . the most glorious red Rose ever created . . . a rich red, red color as brilliant, as stirring, as exciting as the stripes on Old Glory . . . a vibrant red Rose as big and colorful as America itself! Yes, here is a brand-new red Rose so beautiful in color, form *and* fragrance that it was overwhelmingly selected by 10,000 home test gardeners as *THE ROSE OF THE YEAR FOR 1961!*

AMERICANA is the Rose-lover's dream come true! *IT'S RED* . . . a brilliant red color that intensifies as the magnificent blooms slowly unfold . . . a rich red that gives a velvety sheen to the petals . . . a fiery *unfading* red that continues to glow until the last petals wither and fall! *AMERICANA IS BIG* . . . with blooms well over 6 in. across . . . huge blooms with the classic high-centered form . . . large, luscious blooms that last for days even in the hottest weather!

AMERICANA BLOOMS PROFUSELY . . . produces scores of perfectly shaped blooms all season long . . . adding a blaze of color to your garden from June through September. *IT'S FRAGRANT* . . . has a delightful old Rose scent—just the fragrance you would expect in the "perfect" Rose. Be among the very first to enjoy its thrilling beauty this year and for years to come by ordering *AMERICANA* now. (Pl. Pat. Applied For.)

NEW FOR 1961

A Fabulous Pink!

NOBILITY

Test No. 53-2044

(Right) Still another new Rose for 1961—offered for the very first time! It's one of the loveliest "pinks" you ever saw. The exquisite buds, which begin to appear in June, are beautiful in themselves . . . with a light pink shade outside and deeper pink tones toward the center. As they slowly open, the graceful petals turn into a captivating shell-pink . . . yet the center of the flower still retains its slightly deeper tones . . . and then the entire bloom becomes a rich pastel-pink.

When the flower is fully open, it's a breathtaking sight, indeed . . . 5½ in. of sheer pink beauty. And this huge bloom is perfectly formed and high centered . . . much like Peace (which is one of its parents). Scores of these big pastel-pink blooms appear during the season . . . and keep your garden aglow from June right up through September! (Prop. Rights Reserved.) \$3.00 each; 3 for \$7.95; 12 for \$31.80

The First Orchid Rose! Orchid Masterpiece

Test No. 54-8783

(Bottom Right Corner) Here is the very latest addition to J&P's amazing series of lavender-colored Roses! But this one is different from all the others, for it introduces an entirely new color tone . . . a warm, rich ORCHID shade! Yes, an "orchid" Rose . . . with huge blooms—each one a full 5½ in. across, each one drenched with a sweet fragrance. What's more, these "orchid" Roses keep extremely well, are long lasting on the plant or when cut! Here, indeed, is a rare prize for your 1961 garden. (Pl. Pat. Applied For.)

The first orange Rose

Tanya

(Left) Here is another lovely color in Roses—a glowing, radiant, true deep ORANGE! Just look at it . . . imagine this glorious new creation in your garden . . . even brighter, even more brilliant than pictured here! And as you can see, the flower is breathtaking in size and form . . . a giant 5½-in. bloom with graceful petals and classic high center!

Long, slender, lively red-orange buds open gradually and gracefully to an exciting garden and show Rose. Early-morning sun gives it an iridescent sparkle. The orderly unfolding of the petals produces shadows in the half-open flower, making this high-centered Rose even more entrancing. Gradually the marvelous orange color spills into the center of the flower. In different parts of the country, the deep orange color varies from burnt-orange to apricot-orange. 2½ to 3-ft. plants spread well and hang on to the highly disease-resistant foliage. A seedling of the world-famous Peace Rose, Tanya has retained the large flower size and the glossy deep green foliage of its parent. (Pl. Pat. #1712.)

... and a stunning PINK color!**

Pink Duchess

(Right) Rarely has a Rose received such glowing praise—and with such good reason! For PINK DUCHESS is truly one of the most outstanding pink Roses ever created. A distinguished descendant of *Peace*, PINK DUCHESS is perfectly formed, fragrant and huge—up to a full 6 in. across! Its regal color makes it seem almost luminescent as it gracefully unfolds its lovely blooms. Large buds have a golden color on the outside and base of the petals. As the flower opens, this reverse color softens and gradually becomes suffused with the clean scintillating pink. Flowers are the true *Peace* form, but each one has 10 to 15 more petals than *Peace*. Vigorous and hardy, the bush will reach 3 to 4 ft. high. (Pl. Pat. #1834.)

**Another
Glorious Red!**

American Home

(Right) Here is an intensely fragrant, rich blood-red Hybrid Tea, named in honor of the national home-maker's magazine. American Home was produced by crossing New Yorker and Chrysler Imperial. In addition to having the free-flowering habit, brilliant color and compactness of New Yorker, it possesses the large flower, intense fragrance, large dark green foliage and vigor of Chrysler Imperial. Because of its dense foliage and compact habit, the plant never looks thin or ragged. In fact, even out of flower it makes a handsome shrub. The petals do not curl as the flowers age, and they drop cleanly so that there are no dead blossoms on the plant at any time. Flowers are large, $4\frac{1}{2}$ to 5 in. across, with large flat petals of outstanding substance. Blooms are quite double and open well under all weather conditions into a very full, heavy flower. Plants will reach from 3 to 4 ft. by the end of the second season and will increase in size thereafter. However, because of the dense foliage and compact habit, the plant never appears awkward. (Pl. Pat. Applied For.)

**Just about the most fragrant
yellow Rose ever created!**

Arlene Francis

(Right) Golden yellow . . . intensely fragrant . . . perfectly shaped. No wonder it won a gold medal at Baden Baden, Germany! With the well-loved Eclipse as a parent, this Rose has a charm equal to that of its "mother," with flower color and fragrance intensified!

The bush is vigorous and prolific, producing masses of flowers. AND wherever the plant is cut, it repeats with brand-new shoots. Golden yellow buds develop into flowers which average from 20 to 25 petals, each opening wide to approximately 5 in. across. The delightful, true old Rose fragrance is distinct and long lasting—an unusual feature in a yellow variety. A medium tall plant, it has glossy dark green foliage that takes on a distinctly reddish tinge toward the end of the summer. The very hardy plant continues to bloom even after the first autumn frosts. Plant it this spring and have scores of gorgeous blooms all season and for years to come. Both in the garden and when cut, these sunny-colored flowers are delightful. (Pl. Pat. #1684.)

THE 1959 ROSE OF THE YEAR

KORDES PERFECTA

(Far Left) An intriguing color combination, completely different from any other Rose in existence. The basic color, cream-white, is lined with red as the petal edges seem to be dipped in carmine. This deeper color spreads throughout as the flower opens to a most pleasingly unusual combination of red and white with a suffusion of yellow. $4\frac{1}{2}$ to 5-in. blooms are extremely long lasting. All season long, this vigorous 3-ft. plant produces a large number of superb exhibition Roses, sometimes as individual flowers, sometimes as a breathtaking candelabra of enough flowers to make a whole bouquet. This is the Hybridizer's Dream Rose. (Pl. Pat. #1604.)

(Left) A warm, glowing ORANGE-CORAL blend—a color as exotic and sultry as Hawaii itself. Scores upon scores of these gorgeous orange-coral blooms, each one well over 6 in. across. These lovely blooms have a pronounced raspberry scent. Hawaii is one of the hardiest, best-growing Roses ever created. And what a plant . . . tall growing, with clean branches that carry 5 to 6 flowers. Glossy foliage shows tints of red as the cooler fall days approach. In formal and informal arrangements the color is much sought after for prize-winning effects. The color, the fragrance and the overall charm make it very popular. (Pl. Pat. #1833.)

STERLING SILVER

(Right) There's only one Sterling Silver . . . a warm regal silver-lavender . . . as rich as its namesake. Imagine magnificent Roses like these blooming in your garden all season long. As spring arrives, tight pink-lavender buds open slowly . . . stretching into glistening silvery blooms . . . each one a full 5 in. across. And the sweet fragrance that fills the air is so satisfying! The bush is medium tall and upright, vigorous and free blooming, with leathery dark green foliage. You'll love Sterling Silver in your home, too . . . for its dainty form and novel color make it a "must" for any flower arranger. This is the variety around which is centered the Sterling Bowl Tournament, held annually at our Festival of Roses, at the Newark Rose Gardens. Plant it this spring and have your own Festival of Roses. (Pl. Pat. #1433.)

(Above) The graceful flowing lines of the long golden buds catch the eye immediately. As they mature, an occasional blush of red caresses the edges of the slender, 1½ to 2-in. buds. Throughout the entire season they unfold slowly, giving way to majestic, high-centered flowers of rich golden yellow, carried on long, sturdy stems. Imagine a plant with constantly repeating, radiant blooms that often reach 6½ to 7½ in. across, with a full but open center. From the start, the golden bud stops the eye, and the shapely, long-lasting flower keeps one watching it to the end. Even before these magnificent flowers appear, the bush adorns itself with nearly perfect, glossy green foliage. Its extremely

pleasant old Rose fragrance will fill your garden. It's perfect for cutting. No matter how many Roses you already have, or what colors they may be, you need Golden Masterpiece. Just picture the biggest, fullest, most exquisite Rose you ever saw, bathed in a shimmering, shining coat of gold . . . and there you have Golden Masterpiece. Yes, here's the biggest yellow Rose you ever saw. There has never been another "yellow" like it. For sheer size, it's in a class by itself . . . and for sheer beauty it is second to none. Long-pointed, graceful buds of alabaster-white open slowly to dazzling, stark white blooms that reach up to 4 in. across. These elegant flowers are high centered and provide an enjoyable addition to any garden. They are produced freely on 2-ft. stems that are excellent for cutting. White Swan has a delightful fragrance that is very effective but not dominant. The 3 to 4-ft. bush is vigorous and will stand up well under adverse conditions, requiring little care and producing these exquisite flowers all season long. (Pl. Pat. #1115.)

Peace

(Below)

Peace has held a distinguished place among yellow Roses since the day it was introduced. Its ovoid buds are golden yellow etched with pink. As they open, they change from canary-yellow to pale gold, to iridescent cream. The petals are edged with apple-blossom-pink that deepens as the delicately fragrant flower slowly opens to a glorious 5 to 6 in. Petals are large, numbering 40 to 45, and roll gracefully outward. Hardy . . . vigorous . . . disease resistant. Heavy stems lift the flowers proudly above the mass of large, vigorous, shining, holly-like foliage. The strong plants reach 3½ to 4 ft. (Pl. New Yorker

BEST RED

(Above) The universal appeal of the Red Rose is justified in New Yorker. It displays immense blooms of resplendent scarlet with dark overtones of a rich velvety hue. New Yorker, the epitome of Red Roses, dresses itself in red from beginning to end, starting with the new shoots of bright red. Buds of perfect form and texture open slowly to tremendous, fragrant, sparkling red flowers—often 6½ in. across. The sparkling color does not fade but stays a deep rich red until the last. Not only is the color long lasting and sun resistant, but the plant is upright and vigorous. The 3 to 3½-ft. bush, vigorous and easy to grow, is adorned with healthy foliage. It produces a continuous succession of bloom from June right up to frost. When most people think of a Rose, they picture a delicately formed, deep red flower with soft, velvety petals and rich fragrance. Well, that's New Yorker—everyone's dream Rose come true . . . a Rose that experts and amateurs consider to be "the BEST RED ROSE OF ALL TIME." Magnificently formed blooms of enormous size continue without interruption all season. (Pl. Pat. #823.)

BEST PINK

Pink Lustre

(Above) A very large, tall-growing, cool pink Hybrid Tea. It has luxurious high-centered flowers of exhibition size and quality, which open slowly and gracefully. The edges of the petals are a deeper pink, giving a lovely variation. The deep rose-pink, ovoid buds open easily and hold their clear clean color. Foliage is a handsome polished dark green, very uniform and disease resistant. Pink Lustre will be widely used as an exhibition Rose and admired everywhere for its classic form and luminous color. It is a descendant of Peace, which puts it among the blue-bloods of the Rose family. This strong, well-balanced plant comes to us from Holland and was tested here under all conditions and found to be very healthy and impressive. The 2½ to 3-ft. plant will adorn your garden and home with its many lovely blooms. (Pl. Pat. #1641.)

White Queen

BEST WHITE

(Above) A sparkling white Hybrid Tea! One of the Best White Roses of recent years. White Queen is slender in bud, with graceful high center, opening to a pure white, $4\frac{1}{2}$ -in. flower. The really stark white, open flowers last very well. Petals are stiff and very resistant to wind and rain. Somewhat more vigorous than most recent whites, for it has been strengthened by the addition of Floribunda blood for this purpose. The plant grows about 3 ft. tall and makes very neat, upright growth. Excellent foliage is medium large, of a rich green. The sparkling white flowers are exquisite for arrangements in the house and give an air of sharpness and cleanliness in the garden. White Queen has commanded much attention in our test gardens, and the comments have been most favorable at all times. We like this variety very much and know it will make a place for itself. It belongs in your garden. Plant it this spring. You will be rewarded with strong, graceful blooms. (Pl. Pat. #1762.)

Diamond Jubilee

BEST BUFF-ORANGE

(Above) The loveliness and perfection of this handsome Rose will amaze you when its enormous flowers appear. You'll agree with the experts who voted it top honors in the 1948 All-America Trials. The blooms of unsurpassed loveliness on a plant which is attractive in itself give undeniable proof that the Rose is the "Queen of Flowers." The color is warm glowing buff-orange, deeper in cooler weather, with a radiant sparkle from a touch of orange-yellow at the base of each petal. Often 5 to 6 in. across, the many stately flowers on every plant are fully double and high centered. The many heavy-textured petals do not fade or burn even in warm weather, but rather intensify in color as the flower opens. Rich soft old Rose fragrance. Diamond Jubilee lasts exceptionally well on the bush and as a cut flower. Warmth of color, perfection of form and rugged vigor are yours in great measure. The plant is sturdy and full, well clothed with rich dark foliage, and the constant succession of flowers is held erect on long strong stems that make it excellent for cutting. (Pl. Pat. #824.)

FIRST GRANDIFLORA TO WIN ALL-AMERICA TRIALS

The superb pure pink shade found only in the choicest Cattleya orchids has at last been captured in the gorgeous Queen Elizabeth Rose. A lovely new color and a new class as well, for this is the first of the new Grandiflora class, named for its abundance of flowers combined with the magnificent qualities of the Hybrid Tea. The unusually clear, glowing blooms are a subtle and breath-taking blend of soft carmine-rose and dawn-pink, majestically set off by deep green, heavy-textured, glossy foliage, abundantly clothing the bush to the ground. The well-shaped plant grows unusually tall and is of good proportion. Exceptional vigor and disease resistance insure healthier, more luxuriant growth all season. The blooms, borne on long, almost thornless cutting stems, grow more beautiful with age. (Pl. Pat. #1259.)

MARY MARGARET McBRIDE Pointed buds of deep coral-pink, slow opening. The 4 to 5-in. blooms are double, high centered, with shimmering gold at the petal base. 40 to 50 petals. Very fragrant. Height about 2½ ft. (Pl. Pat. #537.)

\$1.85 each; 3 for \$4.85; 12 for \$18.85

HELEN TRAUBEL Elegant, 4 to 5-in. blooms of light sparkling pink or luminous apricot. Buds are especially attractive. Large bush, 3 to 5 ft. tall, alive with blooms all season. Flowers are good in any weather. A Rose of real distinction, delightfully fragrant. (Pl. Pat. #1028.)

\$2.75 each; 3 for \$7.20; 12 for \$28.80

PEACE Ovoid buds of golden yellow, etched pink. They change to canary-yellow and then cream as the pink gradually suffuses the bloom. No two are exactly alike. The 5-in. flowers are borne on heavy stems. Hardy, vigorous, 4 ft. (Pl. Pat. #591.)

\$2.50 each; 3 for \$6.60; 12 for \$26.40

TIFFANY Long-pointed, deep pink buds with golden yellow shading at the base. Perfectly formed, double, high-centered blooms of a pleasing shade of pink, with petals of heavy texture. Long, strong stems, fine for cutting. Fragrant. (Pl. Pat. #1304.)

A KATHERINE T. MARSHALL

Long-pointed, deep coral buds. Large, open, 5-in. blooms of warm glowing pink, perfectly formed; fruity fragrance. Hardy, vigorous, 3 to 4 ft. tall; resists heat, rain, disease. Long fine stems, ideal for cutting. Highly praised everywhere. (Pl. Pat. #607.)

B SONATA Cochineal-red in spring and fall, in summer lightening to unusual hues of deep lively pink. Outside of the petals is several shades darker than inside. The large flowers are perfectly shaped, opening gradually from long, pointed buds. Continuous bloom. Very hardy, vigorous, upright plant. (Pl. Pat. #732.)

C OPERA Scarlet buds with golden yellow base open to magnificent 6-in. blooms of flaming light scarlet with buff-yellow on the reverse. High-centered blooms are borne on long, strong stems. Vigorous, upright, healthy. (Pl. Pat. #1017.)

D TAWNY GOLD Frilled petals blend buff, bronze and gold in an enchanting way. Delightful fruity fragrance. The 2½-ft. plant is bushy and compact, with delightful holly-like foliage. Flower arrangers love the tantalizing color. Long lasting, indoors and out. Very hardy. (Pl. Pat. #950.)

E VOLCANO Really huge blooms open to 7 in. across. These tremendous flowers, opening from long, pointed buds, are a live, glowing cherry-red that seems to lighten the surroundings, and then slowly softens to a rosy pink. Fruity fragrance. A strong, bushy plant with dark foliage. Free blooming. (Pl. Pat. #951.)

F GOLDEN SCEPTER Early in June, the tall, open plant bears dozens of slender, golden yellow buds, which slowly unfurl into 5½-in., exquisite yellow blooms that retain their rich color all summer. Vigorous, 2½ to 3-ft. plant. A really majestic Hybrid Tea that is widely admired and planted. (Pl. Pat. #910.)

G DETROITER Buds of rich carmine-red open to spectacular bright red, high-centered blooms that reach $5\frac{1}{2}$ in. across. The tall bush has an abundance of extra large, glossy foliage. Basal shoots make Detroyter a strong, well-balanced plant. (Pl. Pat. #1219.)

H MARY MARGARET McBRIDE Pointed buds of deep coral-pink. Double blooms are large and high-centered, with shimmering gold at the base. Each flower has 35 to 50 furled petals. Foliage is dark, leathery and glossy. 2-ft. plants, vigorous and bushy. (Pl. Pat. #537.)

I RUBAIYAT Brilliant red with a profusion of long, graceful buds. As the buds open, a glorious riot of deep, scintillating crimson is revealed in the hearts of the blooms. The petal reverse is shades lighter. Height 4 ft. (Pl. Pat. #758.)

J SERENADE Exquisite burnt-orange buds and 5-in., brilliant coral-orange blooms are produced freely on $3\frac{1}{2}$ -ft. plants. Edges of the petals are an interesting darker shade. The excellent bush has nicely balanced, shiny foliage. Clean, open habit. (Pl. Pat. #852.)

K PAGEANT Golden yellow buds open slowly and when half open display a brilliant contrast of vermilion-red with gold reverse. The red turns to a deep, clear coral-rose-pink. $4\frac{1}{2}$ to 5-in. flowers have a raspberry fragrance. 3-ft. plant. (Pl. Pat. #1252.)

L MARDI GRAS

Very dark red buds open up to 5-in., deep sparkling red flowers. Blooms have a pleasing Damask scent. The $3\frac{1}{2}$ -ft. bush extends strong, vigorous stems, fine for cutting. (Pl. Pat. #1139.)

NEW All-America Winner!

Pink Parfait

(Right) Buds daintily colored, petite and always perfect, open to graceful 25-petaled blooms somewhat under medium size. The color is a blend of delicate pinks, varying from pale dawn-pink to a rich rose-pink at the tips of the petals. This darkens considerably as the flower ages. Some flowers are borne singly, but most of them come in clusters on fairly long stems. A wonderful Rose for cutting, it will produce more perfect buds in one season than many others. This will be one of the larger plants in your garden with a beautifully rounded, compact habit and lush, almost ideal foliage. You almost never see a bare stem, and the plant will seldom be without blooms during the growing season. With its extraordinary vigor, large plant size and enormous quantities of blooms, this is one of the best of the Grandifloras. You can count as many as 100 perfect buds on one mature plant at one time. This new 1961 All-America Rose Selections Winner is just the Rose you've been looking for. (Pl. Pat. #1904.)

Pink Parfait

Gold Coast

(Left)

A lovely yellow, medium-growing Grandiflora with masses of flowers opening to clean clear yellow. The plant is literally covered with 3½ to 4-in. flowers. Rich dark green, medium-sized foliage. Excellent pointed buds of deep yellow open to cupped, golden yellow blooms. When fully open, they reveal deep golden yellow stamens that are very effective with the lighter yellow petals. The steady production of blooms gives it the title of "the sweetest, neatest, all-purpose yellow in the Rose Garden." (Pl. Pat. #1790.)

Perkins All-Time Favorites!

Flowers from June to November!

Amazingly Low Prices... To Encourage Large Areas and by New Home Owners!

★**BETTER TIMES.** High-centered, brilliant cerise blooms on long stems. Pronounced, enchanting fragrance. Hardy, medium tall plant.

★**CRIMSON GLORY.** One of the ten most popular Roses in America. It is beautiful and dependable. Well-formed blooms of deep vivid crimson held proudly on a 2 to 2½-ft., vigorous bush. Voted by far the most fragrant Rose by A.R.S.

★**CONDESA DE SASTAGO.** Two-toned coppery pink inside, golden tint outside.

★**COUNTESS VANDAL.** Acclaimed as the most artistic bloom in rosedom. Luscious tones of copper, bronze and pink, flooded with gold and reflexed with silver. Widely used exhibition Rose. A good plant of moderate size. Very effective in table arrangements.

★**ECLIPSE.** Streamlined and modern... slim tapering buds set a mark in grace and daintiness, often exceeding 2 in. in length! Distinctive branching sepals. Best all-purpose brilliant golden yellow Rose in all climates. Plants are vigorous, producing abundant bloom.

★**ETOILE DE HOLLANDE.** Bright red; large; loose; semi-double; fragrant. Vigorous. One of the most dependable and free-blooming older Roses.

★**DICKSONS RED.** This glowing, velvety scarlet-red Rose "has everything"... flashing, unfading color; large, high-centered form; rich spicy fragrance; abundant and continuous bloom. Strong, sturdy bush.

McGredy's Sunset. Flowers are tinted delicate orange and rich scarlet. Best loved of the Irish Roses. 30-in. plants. Sweet, fresh fragrance.

McGredy's Yellow. Large, bright buttercup-yellow. Exquisite bud and flower. Good glossy foliage. Best known of McGredy Roses.

★**MRS. PIERRE S. DU PONT.** Deep golden yellow, slightly lighter with age; semi-double.

★**LYDIA.** A clear, vivid yellow. Although not a tall grower, this variety is a constant source of colorful flowers. Deep green, glossy foliage is decorative, and the rich clear yellow blooms glitter in contrast. The plant is very hardy, medium tall, and bushy.

★**NUMA FAY.** Very full petaled; light coral-pink blooms, satiny and fragrant. Free-blooming plant.

Poinsettia. Perfect buds; glowing fire-red blooms with reflexed petals. Fine cut flower. Vigorous.

President Herbert Hoover. Maroon and orange, two-tone. For years this has been the most popular two-tone Rose. Vigorous; free blooming; fragrant.

Radiance. Cameo-pink; large; fragrant. Blooms all season, in all climates. Tall.

Red Radiance. Large; long lasting; intensely fragrant; clear, even red. Tall. Very reliable.

★**SIGNORA.** Warm brownish orange buds open to lighter mandarin and salmon. Blooms are double and very fragrant, on long strong stems. Foliage rich, glossy dark green. Vigorous, 30 to 36-in. bush. A twenty-year favorite.

★**K. A. VIKTORIA.** One of the daintiest and most delightful of all white Roses. Produces great quantities of pure white flowers all season. Fragrant and long lived. Height 24 to 30 in.

Frau Karl Druschki. Pure white Roses. Very double, very large and long lasting. Noted for its extreme toughness and vigor. Can be used many ways... informal hedge, mass plantings, large flowering shrub, pillar type against walls, fences.

NEW JACKSON & PERKINS

... Easiest of All Roses to Grow ... Yet Pro

Golden Garnette

(Below)

Rich in fragrance, this lovely Rose is another of the newest long-keeping cutting and garden Floribundas. The buds of deep golden yellow open to 4 to 4½-in. flowers. When opening from the tight bud, the outer petals have a slightly lighter edging, giving an attractive airy effect. When cut as buds the flowers keep their rich color for a long time, and they are excellent "keepers" in home, hospital or office . . . anywhere a little beauty is needed. The plant grows 1½ to 2 ft. and is constantly bearing either clusters of flowers or individual blooms on medium long stems. The foliage is a rugged dark green. The fragrance is a pleasing, long-lasting surprise. This is one of the longer keeping series now so much prized in florists' shops. It's excellent for bouquets and especially for corsages. This fine plant lets you make your own lovely bouquets for that special occasion. It will dress up your garden, your home and you. (Pl. Pat. #1898.)

Castanet

(Test No. 54-14811)

(Below) A wonderful new Rose with exceptionally long-lasting, brilliant blooms opening from coppery scarlet buds. One plant produces quantities of these striking, 3 to 4-in. flowers of rich coral-orange . . . reminiscent of the sights and sounds of Spain. Care-free flowers with fresh tea fragrance are gracefully double, with about 40 to 50 petals. Blooms appear constantly, either in clusters of 5 to 12 on a stem or singly after the cluster stage is over. The 2½ to 3-ft. plants have a good bushy habit of growth and are resistant to ills. Excellent for bouquets, and the color fits well in any garden. Try it in yours. (Pl. Pat. #1840.)

WONDER FLORIBUNDAS

Produce Hundreds of Blooms on Every Bush!

never sprawls, never needs trimming, except when you want cut flowers. Floribundas have unlimited uses. They are perfect for foundation planting, for borders, for mass planting in formal or informal beds, picture-window plantings, etc. Useful, indeed!

Yes, Floribundas are beautiful, everblooming, useful, and so easy to grow. They are extremely hardy, requiring very little care, and will grow almost anywhere. Try some in your garden. There's a wide range of colors to choose from, and you're sure to love them all. Your garden needs Floribundas, so plant them this spring and enjoy their unrivaled beauty for years to come.

Lavender Princess

(Test No. 26062)

(Below, Left) Lavender Princess is the loveliest of the new exotic-colored lavender Floribundas. The open flower is gracefully informal, 4 in. or more across, and is carried upright in large clusters on a good plant with excellent dark green foliage. Pointed buds start from an orchid shade and blend in to firm lavender blooms. The clusters of tight buds and open flowers are a pleasing combination of tones of orchid, tan and lavender . . . a challenge to color artists in garden and house arrangements. Healthy, well-branched plants reach about 2 ft. and produce well. The over-all garden effect becomes lavender as soon as the flowers open fully. For those who like the newest in colors, here is a striking new Rose, well on the road to popularity. Plant it this spring and in a few short weeks it will begin to bloom, filling your garden with loveliness. (Pl. Pat. #1905.)

Peach Glow

(Test No. 50-1091)

(Below) From the magic combination of two Floribundas—Fashion, the world's most honored Rose, and Goldilocks, the most popular yellow—comes one of Jackson & Perkins' newest creations, Peach Glow . . . a charming Floribunda with a dainty and exquisite color. Pointed, coral buds open up to unusually clean golden coral blooms with a suffusion of pink at the base. Like the finest porcelain, the steady color captivates everyone who sees it. Sturdy, low-growing plants reach about 2 ft. in height and actually outdo themselves with blooms. Imagine a hardy bush loaded with these delicate flowers . . . each one emitting a delightful, spicy fragrance. The exquisite color and substance of the bloom . . . the lovely form of the bud . . . the hardiness and profusion of bloom . . . all combine to make

this an all-round good garden subject. (Pl. Pat. Applied For.)

HUNDREDS OF HUGE CORAL-ORANGE-RED BLOOMS ... AS BIG AS HYBRID TEAS!

Malibu

(Left) The clear clean tones of a wondrous Pacific sunset come to you in this exquisitely colored Floribunda. Malibu, one of the new type of large-flowered Floribundas, is just as sophisticated and elegant as its name suggests. Both the buds and the 4-in. blooms have the beautiful shape of the larger Hybrid Teas. The plant is always in color, with large and small clusters on individual shoots... and what color! Starting coral-orange-red, the lovely blooms finish several shades lighter, still retaining their attractiveness. The 3-ft. plants are healthy and vigorous, with rich foliage. Malibu is a real fillip of color for your garden... one that you will want to have. Easy to grow and requiring little care, it is especially geared to the modern mode of living. Continuous bloom, ease of maintenance and the vigorous hardiness of Malibu are in tune with modern emphasis on comfortable, pleasurable, outdoor living. Ideally suited for cutting, it is perfectly in keeping with modern decor. This excellent variety with its lovely color, large flowers and longer stems is perfect for bouquets. Malibu's large flowers are borne on large, vigorous plants, which are characterized by a compact, full habit that never becomes leggy or bare-shanked. All season long these lovely flowers are produced in remarkable abundance over the entire bush. Plant Malibu and bring the balmy freshness of the Pacific beaches into your garden every spring, summer and fall for years to come. Cut Malibu for bouquets and arrangements and let the gorgeous, fragrant flowers bring you the warmth and friendliness of the West. (Pl. Pat. #1962.)

Please Read Following When You Order

IMPORTANT—

***Please
Help Us to
Help You!***

When filling out your order it is most important for all members of the same household to order under one name.

In order to help us keep our records straight please use your address plus your zone number which we have imprinted on the front of the catalog envelope. If for some reason this address should be incorrect, please attach a slip of paper to your order correcting the address.

We are also finding cases where customers are using a borough or a suburb of a city and also the city itself. For example, Bronx and New York City or Germantown and Philadelphia. Again please use your city or borough as imprinted on the front of the catalog envelope.

It would be greatly appreciated if you would help us to see that your orders are sent to you correctly without any delay.

HOW TO REMIT

The best way to send payment is by check, U.S. Postal Notes or by Post Office or Express Money Order. Do not send stamps or currency because we cannot assume any responsibility unless sent by registered mail.

SHIPPING DATES

We will send your order at the proper time for planting in your locality. It is not necessary for you to specify a shipping date.

ITEMS NOT LISTED

Any variety of Roses, Perennials or other material which is not listed on the order blank or in the catalog is unavailable for the current season. Plants not listed will be in our future catalogs when available.

PLEASE DO NOT ASK US TO CHANGE YOUR ORDER

We handle thousands of orders within a very short season, and it is impractical to locate individual orders for changes. We want to accommodate our customers but it is impossible to find any particular order quickly during the shipping season.

The New J&P MIDGET GARDEN DUSTER

Duster and 1-Pound Package of
J&P Rose Dust and Extension

\$9.95
ONLY

Throws 8-Foot Dust Stream With Just One Turn of The Handle!

NEW Extension for Reaching Hard-to-Get Places!

- Rustproof Metal Alloy Construction Throughout!
- Treats over 200 Rose Bushes with One Filling!
- Weighs only 1 1/4 pounds!

An engineering masterpiece, this tiny hand-operated rotary duster is the smallest in the world; yet, it is capable of throwing an 8-foot stream of dust. Holds enough powder in one filling to cover 200 Rose Bushes. This tiny, unbelievably efficient duster is all metal, even to its pistol grip handle. The

gears are sturdy enough to continue operating indefinitely. Now, with each duster you will receive an extension, 1 1/2 feet long, enabling you to reach taller bushes and to dust hard-to-get places inside of the bushes. An adjustable funnel on the end makes it easier to dust under leaves. Made of rustproof metal alloy it will last a lifetime. The Midget Duster, Extension and 1 lb. of J & P Dust for only **\$9.95**, prepaid

MILDEW KING

NEW!
Effective Cure
for Mildew

A highly effective cure for powdery mildew, rust and blackspot—diseases most prevalent among roses in damp fall weather has been perfected by the Jackson & Perkins Company. Readily dissolved in water, only one and a half teaspoons of the material are needed to make a gallon of spray. Mildew King leaves no spots because it contains no residue. It has no elements that can burn or cause injury to plant leaves. Even at the dilution recommended for eradica-

ing severe mildew, Mildew King provides a wide margin of safety to plant tissues. In addition to roses, Mildew King may be used on Begonias, Chrysanthemums, Dahlias, Delphiniums, Sweet Peas, Fuchsias, Camellias and Azaleas. The easy directions are printed on the label.

THE SMALLEST ROSES IN THE WORLD!

Gorgeous Jackson & Perkins Miniature Roses produce exquisite blooms no bigger than your fingernail . . . blooms so small that a thimble holds a bouquet of six!

SCORES OF USES IN YOUR GARDEN

Despite their delicate, gentle appearance . . . despite the fact that their blooms are so unbelievably tiny . . . Miniature Roses are every bit as hardy, as tough, as easy to grow as our much larger Hybrid Teas and Floribundas. Plant them anywhere in your garden . . . or use them in window boxes or rock gardens! When cut, the tiny blooms make ideal boutonnieres, charming centerpieces, entrancing wrist corsages.

OAKINGTON RUBY

(Not illustrated) Deep carmine buds open to rich ruby-crimson, fully double flowers smaller than 1 in., even when fully opened. Less than 12 in. tall, the plant is free flowering from May to November and demands no special attention except cover in cold winters.

RED IMP (Above)

This is one of the newer Miniature Roses. An unfading, deep, rich crimson with fully double blooms of up to 60 petals. The bud is ovoid in shape, and as it opens it becomes a saucy flat rosette with a light fragrance. A Miniature Rose that sparkles in bright beauty. (Pl. Pat. #1032.)

**\$1.50 each; 3 for \$3.90;
12 for \$13.80**

DWARFKING (Below)

Exquisitely formed, miniature buds open to flowers no larger than a postage stamp. Fully double and lightly fragrant. The color is a clean blood-red, and the dark red bud is perfect for a boutonniere. Flowers are usually borne in clusters and sometimes on individual stems, but the plant is always in bloom. This completely hardy plant will build up in size year after year. (Pl. Pat. #1577.)

Vogue

Winner of Six World-wide Awards!

(Below) Here is a gorgeous J&P Floribunda that won 5 of its 6 World-wide Awards before it was even offered to the public! That's right! Before we even announced that it was available, Vogue had already won top honors in France and Switzerland . . . had already been selected as the All-America Winner for 1952! And once you see this beauty growing in your garden this June, you'll quickly understand why the experts have called it one of the finest Floribundas created. Immense clusters of perfectly formed, high-centered, Hybrid-tea-like blooms . . . up to 4 in. across! The color is unlike anything you've ever seen . . . an intensive, brilliant cherry-coral . . . far more radiant and glowing than this picture could possibly show. As if the color, form and fragrance were not enough, Vogue excels in its ability to grow exceptionally well. Hardy and vigorous . . . the strikingly brilliant flowers are produced all summer long! The 2½ to 3-ft. bush is not only hardy but is graced with an abundance of dark foliage that is clean and disease resistant. Plant it this spring and see. (Pl. Pat. #926.)

Golden Fleece

Winner of the Bagatelle Gold Medal!

(Below, Right) Golden Fleece is the prima donna of Floribundas, performing with all the grace and charm of a flirting ballerina! You've never seen such gay-colored buds . . . a lively tawny gold color. Slowly, dramatically they open to a light shade of rich, warm gold . . . then . . . as a grand finale they flare into a bright, dazzling canary color! Each of the flowers is unusually large for a Floribunda—actually 4 to 4½ in. across . . . growing in graceful clusters with as many as 20 individual blooms! You'll really applaud this appealing yellow Floribunda that's as bright as the sunlight itself! And it's so long lasting—because it's a direct descendant of Diamond Jubilee, long noted for being one of the longest-lasting Hybrid Tea Roses in existence! To further its beauty, the plant also displays unusually decorative, disease-resistant foliage in a medium shade of green. When the curtain goes up on this talented show stopper, you'll be delighted. Plants reach 2 ft. in height. (Pl. Pat. #1512.)

Fashion

Greatest All-Time Prize Winner!

(Right) Here indeed, is the finest Floribunda ever created! That's not a claim but a PROVEN FACT, for no other Rose in history has ever won so many awards. No other Rose has ever won 9 World-Wide Awards! And no wonder! For nowhere is there another Rose to match Fashion's breathtaking color—luminous coral-pink suffused with gold. No words or color photos could ever capture its bright pinkish luminescence. It produces hundreds of Roses on every bush—hundreds of exquisite oriental-red buds which are slowly transformed into miniature Hybrid-Tea-shaped blooms up to 3½ in. across. Graceful wavy petals and a rich display of golden yellow stamens add even more beauty to the luminous coral-pink open flowers. Enchanting, delicate fragrance. Long lasting, too. The immense clusters of 20 to 25 flowers are in bloom continuously from June until frost. The plant will reach a height of 2½ to 3 ft., is hardy and vigorous and requires a minimum of care. Fashion makes beautiful flower arrangements. (Pl. Pat. #789.)

Ma Perkins

All-America Award Winner!

(Below) A lovely fresh Floribunda whose sweetly pungent fragrance, sparkling color, and airiness of form suggest a perfect June morning. Although the Ophelia-shaped buds start a translucent light Fashion color, fortified by shades of red in the outer petals, the flowers burst open to coral-shell color. A suffusion of yellow is present in all of the early stages, until at the very end of bloom it finishes a soft shell-pink. The growth of Ma Perkins is strong yet compact. Flowers appear in clusters and singly throughout the season. The color is sparkling from start to finish, and the rich fragrance is unusual. The rich green foliage is abundantly produced, to give a fully clothed appearance. It is quite resistant to diseases and pests, and it will thrive in difficult positions whether used in foundation plantings, borders, Rose beds, or spectacular hedges. The parents of Ma Perkins are two of the hardiest varieties in rosedom, Red Radiance and Fashion. (Pl. Pat. #1143.)

Fusilier

All-America Award Winner!

(Below, Left) Fusilier is a flaming orange-scarlet with growth and blooming habits that everyone will love. Dark red buds of globular shape slowly open to 3 to 3½-in. flowers, with large attractive petals that are flaming orange-scarlet in warm weather, with dark overtones and an underlying incandescence when the weather is cool. The fragrant flowers have up to 40 petals, with margins frilled and ruffled. They are borne in heavy clusters, each a bouncing big bouquet. The plant is upright and full, 30 to 36 in. tall, with large, leathery, lustrous dark green foliage complementing the outstanding color of the flower. The sharp color and bushy growth will make this a favorite for all uses—in Rose gardens, in hedges, in shrub plantings and numerous other places where accents are desired. Fusilier is always on dress parade, erect in its brilliant tunic, steadfast against the elements. (Pl. Pat. #1709.)

Betty Prior . . . ALWAYS in Bloom!

(Right) Unusually tall and free flowering; delicate pink; spicy fragrance. In June its colorful myriads of blossoms are a glorious sight. All through the summer the buds and flowers, resembling red dogwood, continue to attract interest. Buds are lively red, opening shell-pink, having 5 petals, dogwood-like in shape, size and color. The healthy, vigorous plants are sturdy yet delicate in appearance. In beds, borders, hedges, groups and large plantings, Betty Prior gives gorgeous mass color effects and many cut flowers. Tallest of all Floribundas, an established plant will grow 4 ft. tall or more. Large bloom clusters appear continuously all season. Excellent for the background of a Rose garden or perennial border, Betty Prior is hardy and abundantly branched. Foliage is excellent.

Chatter

(Below) Especially bright crimson, velvety-petaled flowers are 2½ to 3 in. across. Produced in generous clusters, the dainty buds open slowly until each cluster bursts with handsome crimson flowers. These enormous clusters last two and sometimes even three weeks. As one flower finishes, new buds open to take its place. Sturdy and hardy, with an 18-in., disease-resistant bush. Long-lasting, remarkable flower clusters appear continuously from early spring to late fall. The bright clusters are so persistent that the bush is never without color. Plant Chatter where you want a dependable color mass, in beds and borders. It will richly reward you with stunning color wherever planted. (Pl. Pat. #739.)

J & P EVERBLOOMING
MAKE BEAUTIFUL FLO
THAT BLOOM ALL SEASON LONG..

Goldilocks (Right)

Clusters last a long time, as fresh new buds keep replenishing the over-all effect of a golden yellow mass. Ovoid buds open slowly and gracefully, passing through many attractive phases. The flowers are cupped in the early stages and gradually open to 3½ in. across. Plants have a dense, spreading, well-balanced habit of growth, reaching a height of 2½ ft. Dark green foliage is glossy and decorative. Goldilocks will look well anywhere. (Pl. Pat. #672.)

MORE FAMOUS FLORIBUNDAS

BABY BLAZE. A vigorous, 3-ft. bush produces an abundance of deep red, semi-cup-shaped flowers with interesting fluted petals. Finishing a few shades lighter, the bright color is much enhanced by the white eye at the center of the flower. It does not fade or blue. (Pl. Pat. #1362.)

\$2.00 each; 3 for \$5.25;
12 for \$19.20; 25 for \$37.50

RED WINGS. A snappy deep red Floribunda with long-lasting flowers and unfading color. Velvety red blooms with about 20 petals appear singly and in clusters. The plant is medium large and well formed, with lush foliage. Useful in all garden plantings. (Pl. Pat. #1788.)

\$2.50 each; 3 for \$6.60;
12 for \$24.00; 25 for \$46.85

MASQUERADE. Each bud in the cluster of 10 to 25 is golden yellow. The center bud in each cluster opens first, becoming rose-pink as the petals unfold. The color then deepens to deep red. Each bloom on the 3-ft. plant passes through the same lovely color sequence of yellow, silver, pink and red. (Pl. Pat. #975.)

\$2.00 each; 3 for \$5.25;
12 for \$19.20; 25 for \$37.50

SARABANDE. Bright orange-red, even and clear all through. Vivid yellow stamens make a beautiful color contrast. The semi-double flowers, with 12 to 15 petals, come in clusters and hold their brightness throughout their life. A compact, spreading plant, dense rather than tall. (Pl. Pat. #1761.)

Garnette (Left) Garnette is one of the most widely used Roses in the florist trade today. No other Rose has more perfect form and long-lasting qualities when cut for indoors. Actually it will last a week to ten days, and its red "sweetheart" flowers are so desirable that you, too, will want this gem in your garden. Another outstanding feature is its masses of crinkled, holly-like foliage. It reaches a height of only 18 in. and should be placed in the front of your Rose beds. Plant it now and in a few weeks you will be making your own lovely corsages. The hardy plant will enhance your garden with its exquisite blooms and its neat growth. Anyone who has received a corsage of petite red Roses for that "special occasion" has undoubtedly worn Garnette. And it has been displayed at flower shows throughout the nation.

Rochester (Below) Blooms are freely borne, in a warm, rich tone of light yellow. All season long, Rochester will give you enchanting flowers of almost Hybrid Tea size. No other produces more blooms per plant. A group planting furnishes a continuous display from early June till heavy frost. The medium large, double bloom is soft yellow, flushed orange-carmine on the reverse. Rochester is remarkably hardy, sturdy and vigorous, with cluster formations and free-blooming habit. It possesses a moderate fragrance. 2 to 2½-ft. plants are healthy. Rochester is a gem and will fill many purposes in the garden and home.

Amy Vanderbilt (Left) From early bud to fully opened flower, the color changes slowly from opulent purple-lilac to lavender-lilac and finishes a lovely cool lavender. The 2½ to 3-in. flowers usually come in heavy clusters of from 4 to 8 blooms and are delightfully fragrant. At the finish of the blooming, the petals drop off cleanly so that the general appearance of the plant is always pleasant. The bush grows well, is healthy and vigorous and is completely covered with excellent dark foliage. Flower arrangers adore this one. The unusual color is a challenge to the many people who love to produce new color effects in home or garden. (Pl. Pat. #1585.)

J&P Everblooming Climbers Produce to Drape Over Fences, Porches, Posts

Coral Satin *(Below)*

(Test No. 5570)

This new Climber is a lovely plant with dark green, glossy foliage and generous masses of pink-coral flowers throughout the whole summer and late fall. The unfading flowers reach 4 in. across and are presented in clusters of 4 to 5 blooms. At the end the satiny petals drop off cleanly, giving the plant a perpetually fresh look. The light old Rose fragrance is especially noticeable at midday. Very effective wherever a Climber should be used, yet not rampant or unruly in growth. The color blends beautifully in any combination. It is very hardy, having withstood severe winter tests without any appreciable damage here in our test gardens and throughout the country. It owes its winter resistance to its parents, New Dawn and Fashion, both of which are highly resistant to the freezing cold. The healthy plant attains a height of 6 to 7 ft. and spreads nicely, the flowering shoots reaching out laterally from the main plant. We are very proud to be able to offer this Climber to you. Plant it and see for yourself just how beautiful and hardy it is. (Prop. Rights Reserved.)

Royal Gold *(Below)*

This vigorous, easily managed Climber that blooms the first year it is planted is the yellow Climber you have wanted. Ovoid buds open to gorgeous golden yellow blooms with up to 45 shiny petals and moderate fruity fragrance. These richly colored, enduring flowers reach up to 4 in. across. With the blooming habit of a Floribunda, the flowers are carried in clusters of 3 to 7 and also singly on stems adequate for cutting. Abundant green foliage of moderate size, borne on 4 to 5-ft. canes that develop the first year. Three to four canes will be produced each following year until the plant reaches its majestic height of 5 to 7 ft. Characterized by dependable recurrence of bloom and strong growth, this Pillar Rose never tends to get out of bounds. It is very adaptable and extremely hardy. Place it where its full beauty can be realized. It's one of the best of its type and color. (Pl. Pat. #1849.)

Morning Dawn

Morning Dawn

(Above) A refreshing color in Climbers. The large, 5-in. flowers are a dewy, silvery rose flushed with salmon, so it is a warm soft pink in all stages. A suffusion of yellow at the base of the petals only serves to enhance this Rose. One of the most fascinating things about this Climber is its unusually large buds, which are about 3 in. across and of the same color and fine texture as the full blooms. Magnificent, fully double blooms appear singly and on very long stems. Attractive shiny, dark, holly-like foliage decorates this 6 to 8-ft. pillar. It will fill your garden with its sweet, spicy old Rose fragrance. You will be pleased with its performance and marvel at its large, enchanting blooms. Plant it this spring and enjoy it for years to come. We are sure it will raise delighted comments from your neighbors, as it does in our famous 17-acre Rose Garden in Newark, New York. (Pl. Pat. #1447.)

Don Juan

(Above) True to the traditional hero of Tirso de Molina's drama, Mozart's most perfect opera, and Lord Byron's epic poem, this Pillar Rose constantly surrounds itself with beauty. It is dressed with unusual numbers of velvety red flowers throughout the season. In spring there is a glorious burst of velvety red, 5-in. flowers, carried both in clusters and singly, with a delightful fragrance. The pointed bud is a rich deeper red and excellent for cutting. The flower retains its clean color until the petals drop. All through the summer there is a constant display of the fragrant, rich red flowers, not only on the old wood but also on new, tall-growing bottom breaks. The 8 to 10-ft. plant is well covered with dark green, lustrous foliage that is highly resistant to mildew. (Pl. Pat. #1864.)

A Rainbow of Beauty With These J&P Ever

Aloha (Below) Like an artist's dream! Aloha bursts into bloom from top to bottom with a breathtaking display of never-to-be-forgotten glory. After this first peak of June beauty, it continues to bloom frequently until frost. So profuse . . . so rich . . . in its deep rose-pink blooms of enormous size that it defies description. An unbelievable mass of deep coral-pink buds starts the show. These open to very double, perfectly formed blooms of handsome size, strong rich rose-pink in color, with deeper tones on the inside of the petals. Flower after flower measures 5 in. across and as much as 3 in. deep. Each petal is strong and waxy. Unlike many Climbers, Aloha produces buds in long-stemmed clusters. As if to prolong the display, they do not come all at once. The primary bud opens into a gorgeous 5-in. bloom while the secondary buds around it are still undeveloped. The rosette form of the overlapping petals holds up especially well. Plant it now and watch it beautify your garden. (Pl. Pat. #948.)

Climbing Showers

Golden Showers was the first Climber in 16 years to win the All-America Award. It is the answer to the landscaper's dream—a Rose variety that lends itself to landscape treatment as no other ever has. Exquisitely shaped, daffodil-yellow, long-pointed buds and fragrant, high-centered, 4½ to 5-in., open yellow blooms. Almost thornless, with long, bronze cutting stems, Golden Showers makes exciting cut-flower arrangements.

(Above) One of the world's most popular Roses in Climber form. This luxuriant, vigorous, fast-climbing plant is covered with beautifully formed blooms of deep vivid crimson . . . each on a sturdy stem. The deep red buds are urn-shaped and gradually unfold into full, perfectly formed, high-centered blooms. Completely captivating fragrance . . . so sweet and refreshing that you can't get enough of it. Give your garden unusual splendor and richness; make every post, pillar, fence or wall a dazzling sheet of glory by using this Climber liberally. In sub-zero areas plant it in a sheltered location and have some protection against winter injury. When you plant this popular Hybrid Tea in the form of a magnificent cascading Climber, you add an unequalled touch of splendor to your garden. We are proud to offer this remarkable Rose to our many customers and friends. Plant it this spring. Enjoy it now and for years to come. (Pl. Pat. #736.)

Golden

(Below)

Trained as a Climber, it will attain a height of 6 to 8 ft. Or it can be shaped as a bush. This hardy Everblooming Climber blooms from earliest spring continuously through late fall. Even in the short time when the blooms are waiting to burst forth, the plant is clothed to the ground with large, dark green, glossy foliage. So vigorous that it is highly resistant to Rose diseases such as mildew and black-spot. (Pl. Pat. #1557.)

Climbing Coral Dawn

(Below) Here is an Everblooming Climber with a CORAL-PINK color! Yes, a sparkling deep coral-pink . . . the color that is so popular in bush Roses. The coral tone does not fade at any stage . . . from the dainty pointed buds to the slow-opening, graceful, long-lasting, 4½-in. blooms. The color is Coral Dawn's main attraction, but it is a superior Climber in every other respect, too. It produces the same continuous repetition of flowering as the popular New Dawn, but the Roses themselves are larger, fuller, more colorful and freely decorate the plant all season long, in clusters of from 3 to 20 buds. The lustrous, dark green foliage is disease resistant and sets off the coral-pink flowers. This excellent Climber is very easy to grow and will do extremely well in all regions. It is the ideal pillar for any home. The 6 to 8-ft. plant will decorate your garden and home for many years to come. Plant it this spring and see what it will do for you. (Pl. Pat. #1117.)

Gladiator (Above)

Here is a champion of Everblooming Climbers. Like the gladiators of old, it has incredible endurance . . . blooms and reblooms all season. You'd expect to find such huge blooms only on the finest Hybrid Tea; yet Gladiator is noted for its immense, 5-in., high-centered flowers . . . unusually large for a Climber. But the huge size is only part of the story! When you see the brilliant rose-red color—a subtle blend of the brightest scarlet and the softest red—you'll know why this gorgeous Climber is in a class by itself. Scores of exquisite flowers burst into bloom on the 8 to 10-ft. plants, making an irresistibly beautiful picture. And Gladiator imparts a delicate, pleasant fragrance that is really delightful. The large, disease-resistant foliage of impressive dark emerald-green creates a decorative effect by itself. In every sense of the word, it is a real champion . . . so hardy that it withstands the battles of zero winter climate. (Pl. Pat. #1524.)

THE NEW BLAZE

MORE EVERBLOOMING!

(Left) Is red one of your favorite colors? Would you take pride in a glorious plant that buries itself under thousands of brilliant red Roses? Then plant Blaze! Most popular of all Everblooming Climbers. The popularity of Blaze increases year by year. These are the brilliant doubled red Climbing Roses one sees all over America. You'll be thrilled with the exceedingly generous blooms, and each succeeding year will increase your devotion as the plants become established and the sturdy canes of old wood bring the everblooming characteristic to the fore. During June, July, August and September this amazing plant will outdo itself, giving you literally thousands of Roses every season. Yes, you'll see thousands of exquisite, 2 to 3-in., cup-shaped, scarlet-red flowers on just one plant. No other plant gives you so much beauty, so much color, for so long a time. Blaze is one of the finest Climbers for planting in any spot where this type of Rose is desired. It requires no special attention, but grows luxuriantly with a magnificent display of flowers. It's a good investment for your garden. Blaze kindles the warmth of welcome that your home extends as guests approach. In this picture showing the entrance of a home here in the Rose Capital of America, its brilliant pillar of glowing red is in complete harmony with the porch. No garden is complete without the New Improved Everblooming Blaze. Plant Improved Blaze where its glorious mantle of bloom may be fully enjoyed—on a fence or garage, on a pillar or post, at a doorway or on an arch. Blaze is the most famous Everblooming Climbing Rose Ever Grown. Note: In trimming the plant, pluck only actual dead flowers, for the new bloom shoots grow from the first eye below the flower cluster.

WHERE THE NEW BLAZE CAME FROM ...

One particular plant that outbloomed and outperformed all others, blooming constantly during July, August and September, was carefully isolated and used as a stock plant from which to multiply this new strain of Blaze. After years of propagating from this heavily blooming type, we now have the new everblooming strain. You'll see how superior it is.

...and here are 4 more great Climbers!

Dr. J. H. Nicolas

(Below, Right) Magnificent, large, very double, deeply fragrant blooms reach 5 to 6 in. across. There is an immense wealth of thickly clustered flowers, so desired in a Climber. Beautiful deep rose-pink, with rich, luxuriant, dark green foliage. This Climber sets a standard of charm wherever height and glorious color are desired. Immediately after the first flowers fade, new shoots appear and a galaxy of bloom repeats again and again. Equally delightful in large or small gardens. Wherever a Climber is needed, this one will fill the bill.

\$2.00 each; 3 for \$5.25; 12 for \$21.00

New Dawn (Below)

One of the hardiest of all Everblooming Climbers! New Dawn repeats its perfect blooms continuously all season. Glorious Roses with the precious pink color of apple blossoms and delicate old Rose fragrance in profusion, on a plant that is easy to grow, requires little care and takes little ground. The trim, perfectly formed, pointed buds are most artistic in their appeal, superb for bouquets and arrangements. They come on long stems. These sturdy canes grow rapidly; even one plant makes a gorgeous display on trellis, arbor or fence.

\$2.00 each; 3 for \$5.25; 12 for \$21.00

New Dawn

Climbing Goldilocks

(Right) Ovoid, rich golden buds open to 3½-in. flowers, and fresh new buds keep replenishing the effect of a golden yellow mass. Like the Floribunda, Goldilocks as a Climber also blooms in large clusters. Vigorous and hardy, growing 6 to 10 ft. in one year and blooming the first year. (Pl. Pat. #1090.)

\$2.50 each; 3 for \$6.60; 12 for \$26.40

Climbing Goldilocks

Climbing Summer Snow

(Below) Spotless, glistening, glacier-white, double blooms are 2 in. across, with golden stamens that add to the charm of the large clusters in bouquets and arrangements. And Climbing Summer Snow is so generous that one need never hesitate to cut enough for use indoors, for the fragrant white blooms repeat all summer and fall. The hardy plant requires little care and fills out rapidly, growing 8 to 10 ft. tall.

Magnolias

Most Stately, Most Dramatic of All Flowering Trees

Magnolia Soulangeana. You need no longer admire the gorgeous spring blooms of the widely loved Saucer Magnolia in someone else's garden! Many of our plants are already budded; all are sturdy and will give you many years of enjoyment once they have become established in your garden. This magnificent variety, commonly called the Saucer Magnolia, bursts into glory early in the spring with a stunning display of 6-in. flowers that have generous, heavy-textured petals of glistening white with purplish or rose tones on the reverse side. One of the first trees to bloom in

the spring, Magnolias are literally covered with flowers even before the leaves appear. Later the foliage is broadly oval and a rich leathery green. It makes a very handsome ornamental tree, which under ideal conditions grows as high as 30 ft. A splendid tree for growing in smoky city areas. Good drainage rather than a rich soil is the prime essential for Magnolias. For best results apply fertilizer every two years. They are hardy in practically all sections of the country. If peach trees will live in your locality, Magnolias will do well there, too.

5-year tree, 18 to 24 in. tall,

Each flower head builds up with many side branches and makes a great showing of color for weeks in June and July. This exquisite Phlox is very fragrant and desirable.

\$1.00 each; 3 for \$2.50; 6 for \$5.00

July-Aug. Phlox, White Admiral 2 to 2½ ft.

PHLOX, WHITE ADMIRAL (Above) Here is a new white Phlox guaranteed to bring more beauty to your garden. It produces enormous, pure white heads, and the continually breaking side branches give an excellent late bloom. Reaches a height of 2 to 2½ ft. and blooms profusely in July and Aug. White Admiral is very fragrant.

GIANT DELP

HAPPINESS (Left) Exceptionally large individual florets of warm pink-lavender. Clear blue at the tips of the outer petals. The unusually large spikes are full, firm and sturdy—a joy to behold. We suggest planting in groups of 3 or more with Delphinium Enchantment for fine contrast. Has the vigor and hardiness of the Northern New York strain, with larger florets and greater mass effect. A beautiful addition.

\$1.25 each;
3 for \$3.15;
6 for \$6.25

GLORIOUS (Above) Deep royal purple, by far the darkest and richest of all Delphiniums. This is truly a breathtaking color. The long, beautiful spikes are all out-at-once in blooming; no shattering until the last buds are fully open. Stems are wiry and strong, holding the majestic spikes on proud display. The plant repeats quickly with its colorful bloom spikes and is always perfectly hardy. 4½ ft. tall.

\$1.00 each;
3 for \$2.50;
6 for \$5.00

PEACE (Above) Here is a handsome variety that is just as desirable as its name. Individual florets are 3½ to 4 in. across. The face of each floret is a clear white with a lovely cream bee. Blooms in June and July. If cut back immediately when it is through blooming, the plant will quickly give another crop of giant flowers. A beautiful variety to plant with other colors. You are sure to like it. Reaches a height of 4 ft.

\$1.50 each;
3 for \$3.75;
6 for \$7.50

“ALL-OUT-AT-ONCE” SPIKES

Handsome, long-lasting, all-out-at-once, 20 to 30-in. spikes with giant all-double flowers closely set on towering 5-ft. spires. Four to six such spikes to a plant in June and July, repeating bloom in the late summer and early fall.

AN IMPROVED RACE

One of our chief aims in developing this new race was

ENCHANTMENT (Above) Light blue. True Delphinium-blue, with white eyes . . . the hybridists' dream. A giant double Delphinium with superb masses of bloom on all-out-at-once spikes. Striking in a white vase. 4 ft. tall.

85c each; 3 for \$2.25;
6 for \$4.25

DEBUTANTE (Not illustrated) The chaste white double florets are closely set on the trim spikes, adding to their fine accent effect. A cool and refreshing touch in any garden in July, just when it is needed most. 4 ft. tall.

GUARANTEED TO BLOOM!

to provide trim and sturdy stalks not easily blown down by the wind . . . yet not cumbersome and stiff in bouquets. You will find that J&P Delphiniums do not need staking in most localities.

This Northern New York strain reaches these ideals and still has kept all the exquisite grace and charm of Delphiniums at their best. Plant them in threes, fives or dozens for dramatic color effects.

GAYETY (Not illustrated) A dainty color that is most pleasing—pinkish lavender with outer petals blue. Unique color display that will remind you of "lavender and old lace." Side shoots prolong the blooms for several weeks. 5 ft. tall.

85c each; 3 for \$2.25;
6 for \$4.25

PINK GLOW (Above) A large-flowered variety with the new dark rose-pink florets with lilac shadings. The flowers have white eyes. Blooms in June and July and again in August and September if properly cut back. 4 ft. tall.

\$1.50 each; 3 for \$3.75;
6 for \$7.50

FREEDOM (Above)

White, with black-and-white bees. The long-lasting spikes are set with large, double florets and bloom again in late summer if cut back after the early crop. Will "pep up" any garden, for it has real character. This variety is in great demand because it is an excellent color to accent a perennial border. Stunning in all-white bouquets or in combination with bright colors. 4½ to 5 ft. tall. Striking in groups or with other Delphinium hybrids.

85c each; 3 for \$2.25;
6 for \$4.25

DELIGHTFUL (Above)

Deep blue. The rare, real all-blue, in the darker shades so hard to get. Particularly effective because it is so good with other colors. It furnishes a glorious background for lower-growing flowers. 5 ft. tall. This is what you have in mind when you speak of dark, rich "Delphinium-blue." It is a glorious color badly needed in most perennial plantings. Be sure to cut back the plant after its first blooming period so that it will repeat later.

85c each; 3 for \$2.25;
6 for \$4.25

LOVELINESS (Right)

Immense, semi-double florets 3½ to 4 in. across. Each floret is a beautiful orchid-lavender color with a white center and accentuated on the far edges with tiny points of sea-blue. The full flower spikes furnish a dramatic accent in any group planting. Height 4 to 4½ ft. It will repeat rapidly in the summer months and will be lovely again in the fall. Superb for a border where its full beauty may be enjoyed. We recommend it highly.

NEW VARIETIES FOR 1961

A CHESTNUT WARBLER. Double semi-incurved shaggy type, 6 to 6½ in. across. Grows on upright, 30-in. stems and has rich foliage. Blooms are rich reddish bronze with gold-bronze reverse. Blooms from mid-September to mid-November. (Prop. Rights Reserved.)

B SNOWY EGRET. 5 to 5½-in., shaggy blooms. Brisk clean fragrance. Dark glossy foliage. Upright plant is medium tall, bearing these fresh cream-white blooms from the end of Sept. to frost. (Pl. Pat. Applied For.)

C HUMMING BIRD. Gentle clear pink, 6 to 6½-in. blooms. Petals are wide and flower is gracefully shaggy. Flowers stand up well on firm, 28-in. stems. Foliage is very good. The plant blooms Sept. to frost. (Prop. Rights Reserved.)

D HORNE LARK. Large red bloom with a yellow base. 5-in. flowers are shaggy type. Medium tall plant blooms from end of Sept., peak of bloom is end of Oct. Deep cut foliage covers plant well. Excellent variety. (Pl. Pat. #1996.)

E SONG SPARROW. Large pastel, 6 to 6½-in. blooms which open slowly from a bright orange bud through buff-peach tones, ending in pastel tan. Compact plant 24 in. tall. Blooms from late August to frost. (Prop. Rights Reserved.)

F PURPLE FINCH. (Test No. 55-44.) Cerise-red, 6-in. blooms with silver reverse give the effect of a rich French purple. Foliage is luxuriant. The generous plant grows about 30 in. tall. Blooms from late Sept. to severe frost. (Pl. Pat. Applied For.)

1 DESERT QUAIL.

Lovely soft lavender-pink. The 5-in. flowers are decorative, flat and widespread. The 20 to 24-in. plants bloom the end of Sept. to frost. Foliage is fine cut and clean. A lovely color, both in the garden and for use in flower arrangements. (Pl. Pat. #1555.)

2 YELLOW WARBLER.

Large-flowering, shaggy type. Golden-butter-yellow blooms reach 5 to 5½ in. across. Good for cutting, combining well with any other color. Upright plant is of medium height. Blooms from Sept. to frost. (Pl. Pat. #1922.)

3 CHIMNEY SWIFT. Good sharp, full, burgundy-red blooms are $4\frac{1}{2}$ in. across. Medium tall plant is compact. Uniformity of color outstanding. Extremely rich in bouquets and autumn gardens. Blooms early Sept. to frost. (Pl. Pat. #1889.)

4 PHOEBE. Golden tangerine buds open up to very pleasant, friendly tan flowers. A lively, lovely variety during its life— $4\frac{1}{2}$ in., larger if disbudded. The plant has compact growth reaching 32 to 36 in. in height. Excellent for cutting. Long lasting. Blooms Sept. 15. (Pl. Pat. #1467.)

5 CHICKADEE. This lovely orchid-lavender Mum is very decorative both outdoors and indoors. The 5-in. flowers start blooming about Sept. 30. The 30-in. plant is very sturdy and resistant to insects and disease. Blooms are long lasting and keep well when cut. Recommended for every garden. (Pl. Pat. #1571.)

6 ICELAND GULL. The $5\frac{1}{2}$ to 6-in. flowers are breath-taking in their beauty. Center of the flower is soft light yellow, while the outer petals are shaggy and pure white. The $2\frac{1}{2}$ -ft. plant carries many blooms from Sept. to heavy frost. Very attractive and desirable. (Pl. Pat. #1666.)

7 BROWN CRANE. Orange-tan with a flush of strawberry shading, a pleasing autumn color. Carnation shaped, with 5-in., full-petaled flowers, at least 3 in. thick. Medium tall plant blooms from end of Sept. until freezing. (Pl. Pat. Applied For.)

8 GOLDEN COCKATOO. Here is the most spectacular yellow garden Mum of all time! The 5 to $5\frac{1}{2}$ -in. flowers are a glowing Indian yellow. 2-ft. plants bloom from late Sept. and will brighten up your garden until frost. Dark foliage is disease resistant. (Pl. Pat. #1638.)

9 THRASHER. One of the choicest and earliest of the autumn-colored Bird Mums. Burnt-orange to brown, a real fall color. Combines well with yellow and gold varieties. The $4\frac{1}{2}$ -in. flowers come in great profusion on 25 to 30-in. plants. Blooms middle of Sept. to frost. (Pl. Pat. #1553.)

10 SAGE GROUSE. A most attractive new color. When opening, it is strawberry-coral, with a golden buff reverse. The whole flower is slightly lighter when fully open, very soft and subdued. 5-in. flowers are borne on 30-in. plants. Blooms from early Oct. until heavy frost. (Pl. Pat. #1798.)

5-in. blooms of reddish-orange, almost dark orange-bronze. Thick flower. Wide petals, inner ones standing up almost straight. Very long lasting. Medium tall bush blooms from end of Sept. until frost. Produces abundantly. (Pl. Pat. Applied For.)

J CAROLINA PARAKEET. A gay orange-bronze Mum with golden bronze on the reverse of the petals. The 4½-in., double flowers are semi-incurred in shape. 27-in. plants start blooming the end of Sept. The abundance of blooms sometimes necessitates staking. (Pl. Pat. #1657.)

K SANDPIPER. A 5½-in. decorative flower in the lovely pastel autumn shade of strawberry-bronze. This is the largest of the Bird Mums. A sturdy, very free-blooming plant of medium height with excellent foliage. Blooms Sept. 20 to frost. (Pl. Pat. 1932.)

L TANAGER. As pretty and cheery as its namesake. 4-in., bright crimson-cherry-red flowers. Free blooming! Truly the leading red Mum, always rich and warm in tone—not dull looking. Blooms from Sept. through Oct. . . . very resistant to frost. Grows 2½ ft. (Pl. Pat. #1129.)

M CANARY. Clean-cut color of the blooms makes this Mum one of the best yellows available. The perfectly symmetrical, 4½-in. flowers are beautiful rich golden yellow. Reaches 24 to 30-in. height. It's an excellent keeper when cut for indoors. Truly a very outstanding variety. Blooms Sept. and Oct. (Pl. Pat. #1113.)

I PINE SISKIN.

Extra large, 5 to 5½ in. in diameter, of graceful, somewhat informal shape. In color they are a lively pink—pleasing anywhere, but especially liked for bouquets. These attractive blooms last 10 days to 2 weeks when cut. The 20-in. plant blooms from Sept. 30 to severe freezing weather. (Pl. Pat. #1824.)

N WOOD PEEWEE. Broad flowers, as much as 5 to 5½ in. in diameter, of graceful, somewhat informal shape. In color they are a lively pink—pleasing anywhere, but especially liked for bouquets. These attractive blooms last 10 days to 2 weeks when cut. The 20-in. plant blooms from Sept. 30 to severe freezing weather. (Pl. Pat. #1824.)

O PHEASANT.

Vibrant autumn bronze. Flower is 4½ to 5 in. across. Irregular petals are graceful and breath-taking. Center of warm burnt-orange softens to pinkish bronze, finally a tawny yellow on the edges. At all stages the flowers are extremely rich looking. They give a seasonal look to the autumn garden as they progress from one fall tone to another. Blooms well from Sept. 15 to frost. Height 3 to 3½ ft. Well liked for flower arrangements. (Pl. Pat. #1162.)

Please Read This:

Tree Roses are popular and take years longer to produce than bush Roses. So, our supply is limited. If a variety you order is sold out, rather than disappoint you we shall send another of similar color. Instructions for planting and care are sent with every order.

Transportation prepaid—nothing further for you to pay. These prices include safe, expert packing. Guaranteed to reach you in good condition.

THE CROWNING ACHIEVEMENT OF THE GARDEN WORLD . . .

If you love Roses and would see them at the pinnacle of perfection, here is an opportunity to grow the "Queen of Flowers" in unequalled excellence. *The blooms produced on Tree Roses are superior in quality to those on regular bushes.* Modern Tree Roses are the crowning glory of the plant world for giant size, exquisite form, brilliance of color and abundant bloom from June to frost. There's a place for Tree Roses anywhere . . . they make informal gardens more radiant, small gardens more intimate, and formal gardens more stately. They present a breathtaking picture in any landscape.

J&P Tree Roses Are Better Because:

J&P Modern Tree Roses are grown on a special strain of Multiflora root and stem (trunk) for best results in your garden. This is a strain that transplants easily, is hardy and handles well for winter protection. These trunks are 3½ ft. tall, with bushy, well-balanced heads. Trunks of J&P Tree Roses increase in diameter in proportion to the top, an essential for success and long life in Tree Roses. They are not subject to borers and other ills common in stems of earlier kinds.
